

Alberta's Fish Stocking Program

The following list of lakes, reservoirs and ponds identifies sites that are frequently stocked with trout. Waterbodies listed below are open all year and possession limits follow the Province-wide maximum possession limits described on page 22. Bait is allowed.

Several waterbodies that are stocked are not identified in this section but appear with special regulations under “Lake and Stream Listing” for Watershed Units starting on page 30.

**REPORT A
POACHER**
www.reportapoacher.com
1-800-642-3800

The **REPORT A POACHER** program provides Albertans with the opportunity to report suspected violations using a toll-free number: **1-800-642-3800** or **#3800 on the TELUS Mobility network** (courtesy TELUS Mobility). The line is in operation 24 hours a day, seven days a week.

Fishing or hunting out of season, night hunting, exceeding bag limits, illegal sale of fish and wildlife and deposit of harmful substances in lakes and rivers

are violations that seriously affect fish and wildlife in Alberta. If you see or know of a violation, you should record all information, including

- date
- time
- location
- vehicle licence number
- vehicle description
- description of person(s) involved
- details of violation, and any other details, no matter how insignificant they may seem. You should then contact the nearest Fish and Wildlife office or call **1-800-642-3800** as soon as possible.

If the information provided concerns a resource violation and results in the laying of a charge, the reporter may be eligible for a reward. If you have any questions about this program, please contact the nearest Fish and Wildlife office (page 27).
