

## DRAW PRIORITY SYSTEM

The draw priority system is designed to recognize hunters who apply for the same special licence annually. Your priority level for a particular special licence increases every year you apply and are not drawn. Once you are drawn for a special licence, your priority for that particular licence drops to zero. **If you apply with another hunter(s), the priority for the group application is that of the individual member whose priority is lowest.** Any year that you do not apply, your priority level does not increase. The following table provides an example of how the priority level is assigned and changes over a number of years.

This is a sample, not your personal priority.

Year	Draw Code Antlered Moose	Pre-Draw Priority	Drawn	Post Draw Priority
2020	33	0	No	1
2021	Did Not Apply			
2022	33	1	No	2
2023	33	2	Yes	0
2024	33	0	No	1

## DRAW SELECTION PROCESS

The draw selection process is based on a priority system which allocates licences to applicants with the highest priority as follows:

**THE FIRST, SECOND AND THIRD CHOICES OF THE HIGHEST PRIORITY APPLICANT IS CONSIDERED BEFORE ANY CHOICE OF AN APPLICANT WITH A LOWER PRIORITY.**

The draws are completed one species (draw code) at a time. Each WMU/Area Choice within the species has a quota for the maximum number of applicants that can be selected. The selection process starts by determining if the number of applicants for a WMU/Area Choice exceeds the quota for that WMU/Area. If so, the priority selection process is applied. The system will first try to fill the available quotas with the first choices of highest priority applicants. If, after the first selection, there are special licences left, the system will look at the second choice of the highest priority applicants that remain, and finally the third choice of highest priority applicants. After considering all top priority applicants, the system will allocate special licences to the next priority applicants. The system will repeat the process with progressively lower priority applicants until all special licences are assigned. If at any level of priority and choice there are more applicants than licences, the available licences will be distributed among those applicants on a random draw basis.

## DRAW STRATEGY

The Wildlife Management Unit (WMU) for which you apply will determine your chances of being drawn. If you apply for a WMU that receives a large number of applications but has a low quota of licences, your chance of getting drawn will be lower than if you apply for a WMU that has fewer applications but a higher quota. The WMU selected does not affect your priority level, but it does affect your chances of selection within a priority level. Priority 1 may be enough to get a licence in WMUs where few hunters apply, but priority 5 may be required to get drawn in a more popular unit with a lower quota. If, for a specific licence, a particular WMU interests you more than others, do not select other WMUs as second and third choices unless you are willing to hunt those WMUs. When drawn, your priority for that draw drops to zero regardless of the WMU being your first, second or third choices.

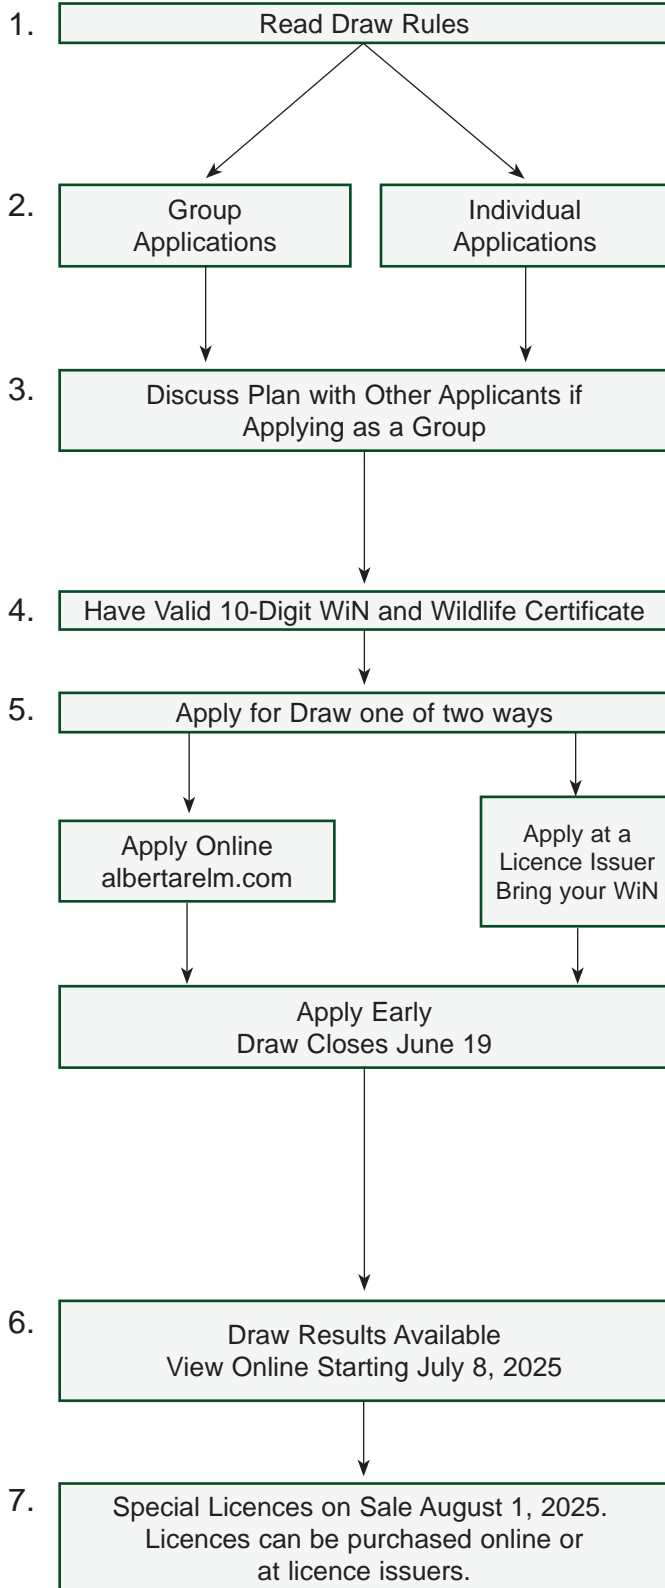

**Remember, your priority level applies to a specific draw code and is the same regardless of the WMU or season for which you apply within that draw code.** For example, if you have priority 3 for the Antlered Moose Special Licence draw, that will be your priority for that licence in whichever WMU or season you apply.

**There's a place for that.**  
**Hunting from the road is a crime.**
