

**Message from the Honourable Shannon Phillips
Minister of Environment and Parks**

Trapping has been a part of the fabric of Western Canada since long before Alberta became a province. The fur trade played a significant role in the history and economic development of the province, and continues to be important to many Alberta economies.

Today's trappers continue a tradition and livelihood linked to our past, while upholding

high standards of ethical and humane harvest. Trappers play an important role in helping manage the populations of wild fur-bearing animals, and have a direct interest in protecting the environment. This ethical commitment helps ensure that there is strong international demand for wild furs from Alberta.

Thanks to the strong cooperation between trappers, conservation groups, and government, Alberta enjoys an abundance of healthy and thriving populations of fur-bearing animals.

Please accept my best wishes for a safe and rewarding trapping season.

Sincerely,
Shannon Phillips
Minister of Environment and Parks

Bear Essentials Program

This instructive, easy-to-use program includes:

- Essentials of Bear Diversity
- Bear Fare
- Essentials of Bear Encounters
- Bear Biology
- Bear Ecology
- Bear Encounters: Coming Face to Face

Go to www.aheia.com and click on "online training" to launch the Bear Essentials program or watch the demo.

Contact the Calgary office at 1-866-852-4342 or the Edmonton office at 1-866-282-4342 for more information.

NOTE: This pamphlet is neither a legal document nor a complete listing of current Alberta trapping regulations. It is a summary of the Wildlife Regulation published to assist trappers to understand the rules of trapping. Details of the regulations may be obtained from the nearest district Fish and Wildlife office (see page 6) or by viewing the Wildlife Regulation at the Alberta Queens Printer website: www.qp.alberta.ca.

The *Alberta Guide to Trapping Regulations* is published annually by Alberta Environment and Parks. It is provided free-of-charge to all Alberta trappers and others interested in the fur industry in Alberta. With the exception of short quotations for review purposes, no portion of this document may be reproduced without written permission from Alberta Environment and Parks.

 • ISSN 1489-4114 (Printed Edition) • ISSN 2368-3643 (Online Edition)

Important Information for 2017 - 2018

- Additional traps have been certified under the Agreement on International Humane Trapping Standards (AIHTS). Trappers are reminded that it is unlawful to use traps that do not meet the requirement of the AIHTS (pages 10-12).
- Trappers are reminded that for the voluntary fisher collection program (see page 19) only the heads of fisher are currently being collected.
- Trappers are reminded that the Trapper Challenge Exam has been discontinued, and first time trappers must now successfully complete the Alberta Trapper Education Course.

If you are interested in taking the Alberta Trapper Education Course, contact the Alberta Trappers' Association office in Westlock at (780) 349-6626.

- For fall 2018, certified killing and restraining traps will become mandatory for Bobcat (see pages 11 and 12).
- Use of certified restraining traps for wolf and beaver (cages) will become mandatory in the fall of 2020 (see page 12).

Definitions

The following definitions will help you understand this Guide:

Fur Management Zone (FMZ) — Alberta is divided into eight (8) Fur Management Zones, based on similar environmental features. Season timing and length is established on the basis of these zones, reflecting differences in furbearer status, trapping pressure and seasonal pelt quality.

Killing Device

1. a device designed and set in a manner to trap and kill a fur-bearing animal by the action of the trap;
2. a snare set to tighten on the neck of a fur-bearing animal in order to kill it, where the energy to tighten the snare is provided by the animal; or
3. a device that is set so that it will hold and kill a fur-bearing animal under water.

Partner — A person with written permission from a Senior Holder (see Senior Holder definition) to trap on the Senior Holder's Fur Management Area. A partner must be a Resident and must obtain a licence. Partners who are first-time trappers must meet mandatory requirements, outlined on page 8, before their partnership agreement can be approved. For further information, contact the Fish and Wildlife Policy Branch (see page 6).

Resident — a person who either

- has his or her only or primary residence in Alberta **and**
— is a Canadian citizen or admitted to permanent residence in

Canada, or

— has lived in Canada for the 12-month period immediately preceding the relevant date;

or

- is on full-time service with the Armed Forces of Canada and would, if an election were held under the *Elections Act* (Canada), be eligible to vote in Alberta under that Act.

Registered Fur Management Area (RFMA) — a parcel of public land the boundary of which is described on the original Registered Fur Management Licence.

Registered Fur Management Licence — a licence to hunt and trap fur-bearing animals on the lands described on the licence, as well as on private lands that the licence-holder owns or occupies.

Resident Fur Management Licence — a licence available for trapping on privately owned and some public lands not included in Registered Fur Management Areas. For further information contact the Fish and Wildlife Policy Branch (see page 6).

Senior Holder — the principal holder of a Registered Fur Management Area, and the person who has authority to give written consent to establish partnerships.

WMU — Wildlife Management Unit, a geographical area prescribed in legislation.

WMU Descriptions

WMUs shown on the enclosed map are legally described in the *Wildlife Regulation* (AR 143/97). The *Wildlife Regulation* may be viewed either at your nearest Fish and Wildlife office (see page 6), online under Wildlife Regulation on the Alberta Queen's Printer website (www.qp.alberta.ca) or purchased from **The Alberta Queen's Printer** at the following address:

Alberta Queen's Printer
10611 - 98 Avenue
Edmonton, Alberta
Telephone: (780) 427-4952

Note: The Queen's Printer does not sell maps.

Maps

The Fur Management Zone map, on page 14 of this guide, is provided to help you determine the zone and WMU in which you are trapping.

Provincial and Federal Maps

Provincial and federal access and topographical maps are available from various private map dealers throughout the province.

County and Other Municipal Maps

County and municipal offices provide detailed maps showing land ownership status. These maps are available for a nominal fee and are useful for learning land status and ownership.
